Getting Started with NEML Mobile App

National Essential Medicine List (NEML) is an important element of National Health system policies and practices and has proven to be useful tool to help country in selecting quality, safe, efficacious and affordable medicines. The development of an NEML app is an important milestone in promoting accessibility to Essential Medicines list and its details, and to quickly refer to the NEML listing and search through them, which is a part of right to health and an important tool to provide access of quality medicines to the people of Pakistan.

About NEML Mobile App

The NEML Mobile app contains a searchable list of Essential Medicines for 2015, of the National Department of Health of Pakistan. The NEML Mobile App enables the users to quickly refer to the NEML listing on the go and search through them using their mobile phones easily.

This app is aimed at doctors, nurses and pharmacists working in the primary care setting of the public-sector health service in Pakistan.

Search for Essential Medicines on the Go using NEML Mobile App!

The essential medicines can also be filtered based on their availability at the service level. The user can easily search for a medicine by typing in its name. The search results can be filtered further.

- The All filter includes all medicines matching the search criteria including Primary, Secondary and Tertiary service levels along with other medicines recommended based on guidelines by other programs, e.g., Malaria control program, TB control program, etc.
- The P/S/T filter can be used to filter search results that are recommended for use at the Primary or / and Secondary or/ and Tertiary service delivery levels.
- The S/T filter can be used to filter search results that are recommended for use at the Secondary or/ and Tertiary service delivery levels.
- The T filter can be used to filter search results that are recommended for use at the Tertiary service delivery levels.

Installing NEML App on your Smartphone

To install the NEML App on your smart phone:

1. Type in <u>http://lmis.gov.pk/neml/neml.apk</u> in the mobile internet browser, and then click **Go**.

2. A confirmation message appears. Click **Download** to download the NEML app installer file.

3. The NEML app installer downloads. A status message appears, as shown in the image below:

4. Click on the installer file to open the Neml App installer. The following screen displays:

At this point, the use will receive a security message asking the user to allow and install the application. In that case, the user should allow the app to be installed.

5. Click Install.

The NEML App installs.

6. Click Open.

The NEML startup screen displays.

The screen updates to open the Essential Medicines List, as shown in the image below:

To learn more about working with the NEML App, see <u>Working with NEML</u> <u>App</u>.

Working with the NEML App

The NEML App enables you to perform the following functions:

- <u>Search for Essential Medicines</u>
- Share Search Results
- View Explanatory Notes
- <u>Contact Support via E-Mail</u>
- <u>Download Essential Medicines List in Excel</u>

These tasks are explained in the sections below.

Searching for Essential Medicines

To search for an essential medicine from the NEML App:

1. Type in the required text in the search bar and then press the subtron on the keyboard.

The app updates with the search results, as shown in the image below:

st sa bu [],ii 89% ∎ 12:39 pm	View explanatory notes
NEML 2018 PAKISTAN	Share search results
anesthetic ×	using this button
RESULTS FOUND: 20	
ALL P/S/T S/T T	Service Level Category
1: Anesthetics: isoflurane General anesthetics and oxygen (Inhalational medicines) inhalation S/T	
2: Anesthetics: sevoflurane (P) General anesthetics and oxygen (Inhalational medicines) inhalation T	
3: Anesthetics: nitrous oxide General anesthetics and oxygen (Inhalational medicines) inhalation P/S/T	

The search key should have a minimum of 3 characters at least.

The number of search results will be displayed in the green bar.

The search results can be filtered further using the given filters under the search bar. Filters represent different service level categories:

- All: this filter displays medicines for Primary, Secondary and Tertiary levels along with other medicines recommended based on guidelines by other programs, e.g., Malaria control program, TB control program, etc.
- P/S/T: Letters 'P', 'S', T, means the product is recommended for use at Primary or / and Secondary or/ and Tertiary service delivery levels. The medicines under this filter therefore can be used at Primary, Secondary and Tertiary health care facilities.

 S/T: Letters 'S', T, means the product is recommended for use at Secondary or/ and Tertiary service delivery levels.
